

Payroll software without limits

The Codapay vision

We believe that payroll should be less complex and without the common administrative burdens.

Codapay offers scalable payroll solutions for businesses big or small – including recruitment agencies, umbrella companies, and payroll bureaus – to eliminate the day-to-day pains associated with keeping workers paid.

Flexible software offering real value for money

A great quality solution is the best way to reduce costs.

Codapay is limitless, with no upgrades required when you grow. Pay any number of workers without delay and use time-saving features like automation and bulk processing.

We evolve alongside you with free, regular updates designed to make your everyday tasks easier.

Best of all, our pay-per-usage pricing model keeps costs affordable, allowing your payroll software to support your growth plans. Plus, you'll get free support (from our UK-based specialists!) included.

That's the Codapay way.

Why we're different

We're a fully UK-based team that combines great technology and customer service. Here are just some of things our clients love about Codapay:

- Cloud-based solution – use it anytime, anywhere
- No hidden costs, ever – free regular upgrades
- Pay as you grow - only pay for what you use
- No cost for additional licenses
- Make bespoke changes to your system (optional)

Unique functionality

- ✓ Unparalleled speed – payroll in seconds
- ✓ No limit on the number of payments made
- ✓ Reverse and correct errors easily
- ✓ Reactivate left employees without duplication
- ✓ Clear audit log to list any changes made

Make fewer errors and increase satisfaction

With built-in AI error checking, the pressure's off when it comes to checking data. Accidents happen, but when they do, you can easily reverse and correct errors.

Make amends to previous pay weeks

Say goodbye to closed pay weeks, as Codapay keeps them open so you can make adjustments.

More reports than you'll ever need – bespoke available

Codapay's rich reporting suite allows you to keep on top of your responsibilities at the click of a button. If you require a custom report, we can configure this for you.

Worker / client portals

Workers, employers, and agencies can login to access payslips, P45s, P60s, communications and contracts, as well as upload timesheets and expenses.

Expenses, invoices, and communications in one system

Save money and increase efficiency by keeping all the functionality you need in one solution. You can also issue documents and assign them against a worker to keep it all in one place.

Save time with bulk processing

Send, import, download, process, and more with ease - without any lagging or hold-ups. Manual data entry is a thing of the past with Codapay – although it's easy to complete if you need to.

- Payslips are generated within 1 hour and RTI is processed
- If you've made an error, rollback the batch and re-run payroll

Onboarding is easy as 1-2-3

1

Free demo of Codapay

Get in touch with our friendly team through our site and we'll set up a meeting to show you around the system and answer any questions.

We'll then offer a free trial so you can test it out for yourself.

2

Give us the go ahead

So, you'd like to switch to Codapay. Great choice!

Moving from an existing provider? You'll need to confirm the details of your current agreement to assess when you can transfer data.

Once a date is agreed, we'll send across a contract with transparent terms – and no hidden costs.

3

We'll get to work

We'll provide an onboarding form for you to complete so our team can configure the system. You'll always have an Account Manager on hand to support you.

While our developers get to work, you'll be provided with a demo version to test, a login to our support desk, plus our training academy to guide you through the system.

We'll then work together to get your system ready on the agreed go-live date. From there on, you'll have permanent access to our gold-rated support desk and your Account Manager.
